

About Us

Wintellect is a software development, cloud, and IT training company founded by a team of technology experts renowned in the industry, with the goal of providing the highest level of custom software development, training, and architecture expertise to our clients. **Our mission** is to help customers "build better software, faster," and we achieve this via a dedicated team of technology experts, with a roster of Microsoft MVPs and industry influencers. Along the way we have won a host of accolades, including the **Worldwide Microsoft Channel Partner of the Year Award** in 2018. On the Learning side, Wintellect has been Microsoft's #1 training vendor worldwide for over a decade. On the Consulting side, we are recognized as a leader in mission critical software design and development, and work continually with major companies on large enterprise systems around the country and worldwide.
